

## CREW REVIEWS ADAPTIVE REUSE

We snapped Fidelity National Title's **Melissa Hall** and Hartman Simon's **Lori Kilberg** at last week's CREW luncheon focused on adaptive reuse. The panel discussion covered King Plow, City Hall East, White Provision, and Puritan Mill. (If you didn't know, Lori is also CREW's **president** this year.) These properties get to benefit from **historic tax credits** and often bring a live-work-play element to generally industrial areas. **Katharine Kelley** with Green Street Properties said that City Hall East will have **six acres** of rooftop rainwater collection. Figures: The **weatherman** only called for five.

*We live-work-play in our car all day tracking down your news, which you can also send to [Jarred@Bisnow.com](mailto:Jarred@Bisnow.com).*
